

Electrical Supplies. Powerful Service.

## Productivity that works where you do.

Inventory is costing you too much. The OASIS Pro PC-based inventory management, tracking and ordering system can slash your inventory

costs and streamline replenishment. So you always have just the products you need where and when you need them – nothing more, nothing less. That saves time and money, while reducing waste and mistakes.

### You hold success in the palm of your hand.

OASIS Pro uses a hand-held scanner, bar coding and proven technology to make you a smarter buyer. As products are removed from inventory, a quick scan of the attached bar code tracks every transaction. So you always know precisely where your supplies go. Better yet, by sending that information to Gexpro over the Internet, we can automatically replenish inventory to predetermined levels at each location. Simply scan and it's done.

### Customized savings at construction sites, production lines and stockrooms.

Every part you buy is an opportunity to be more productive. That's why you should put OASIS Pro's proven technology to work anywhere you carry significant product inventory.

We can also customize OASIS Pro to your unique way of doing business – you can even include items you buy from someone else.

### Fast and painless installation and training.

Gexpro's Customer Solutions Team can have you trained, up and saving in just a few days. Fast and easy.

### The information advantage.

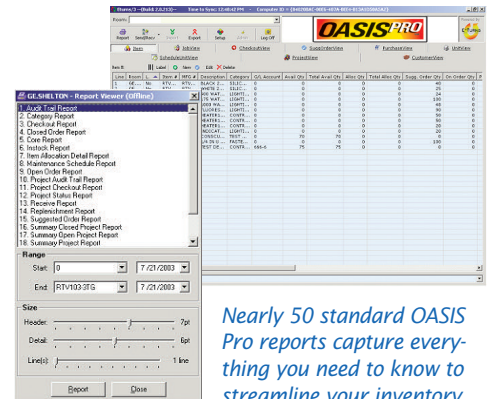

Now you can monitor your inventory, assess project materials costs, and manage usage anytime – from anywhere. OASIS Pro's up-to-date information and powerful, custom reporting capabilities help you make better decisions, spot potential problems and create opportunities. All while reducing your overall inventory costs and boosting productivity and profitability.

### OASIS Pro Delivers a Competitive Advantage:

- Lowers Purchasing Costs
- Cuts Stock Costs, Overages & Obsolescence
